From the Secretary's Desk

*It gives me a great pleasure in inviting all the members in this Annual General Meeting. As the members are aware, our organization had passed through real turn oil during the passed several years. A few years age, a handful local people, who are basically destructive in nature having a negative bend of mind, field a case in Kolkata High Court against the organization on flimsy grounds out of mare jealousy and heart burning. Simultaneously, they also lodged formal complaint against the organization with all collaborating and funding partners. The meeting was held on **13th Day of May, 2025.***

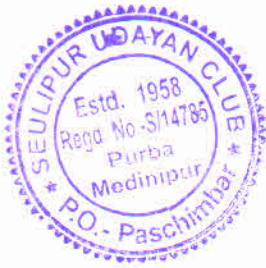

Naturally, we had to fight out of the menace in its own way and ultimately the principal of finality had taken its own course and there has been triumph of truth over the evil. Now there is light after a long tunnel of darkness. Our organization has come out various in the court of law and the embargo imposed by various funding agencies has also been withdrawn. Our organization is once again vibrant with activities. We thank, from the core of your heart, all the members and the local people who had firmly stood behind us during the days of turmoil. It is with your unstained love and affection for the organization the that we are once again in the arena of social service. I firmly believe that all of you will continue to provide such support in future too.

As we know, with great difficulty we have been continuing our regular activities during the past few years. The same activities will continue hereafter too. We are also initiating new programmes for the overall and sustainable development of the local people. A report on the activities during the past year is placed in the next few pages.

All of you are now requested to provide us with your valuable suggestions for constructive rural development work, pass the last year's Audited Accounts and the Budget for the current year.

Thanking you once again,

Yours faithfully,

-: INITIATIVE OF SEULIPUR UDAYAN CLUB :-

Again is a problem today, the world over, in India, the population of aged people (60 plus) ,as per 1991 census was 56,7 million which was 6.76% of total population .This shows doubling of the aged population as compared to 1961 census when it was only 25.6 million, thanks to the invention of life savings drugs and general health conciseness of the people,

An Expert committee headed by the Register General and census commissioner of India has made a population projection for the next few years till 2016,According to the projection , the population of aged people in India will substantially grow from 56 million in 1991 to 71 million in 2001, 96 million 2011 and further to 113 million by 2016.His shows that the growth rate of elderly people will accelerate from 3,13% in 1989- 1991 to 3,45% during 2001-2017, this will substantially increase the share of aged people (60 Plus) in the overall population from 6.76% in 1991 to 8.94% in 2016.

As in case of general population the sex ratio is quite adverse to the case of age segment too. However, the male predominance is limited to the lower age growth generally and to the rural areas only .In the higher age group of 70 plus category the number of female was 1024 females as against 1000 males .However, in the lower age group of 60-70 , the number of females was 959 against 1000 males in consonance with the general trend of population.

In accordance with the general pattern of India Population division between urban and rural, about 66.9% of aged population live in rural areas. Almost three fourths (73%) of the 60 plus population in India was illiterate in 1991.he position of aged women was much worse than that of men with regard to Literacy and education.

Against the back drop, the authorities of SEULIPUR UDAYAN CLUB had observed, with great dismay, that most of the aged people in India are leading a very precarious life due mainly to (1) absence of any full-proof social security safety net for the aged people (2) gradual break done of joint family system and (3) absence of gainful employment opportunities for the aged, particularly in rural areas.

SEULIPUR UDAYAN CLUB had therefore, extended their helping hands to these helpless aged people living in rural areas to make their last lap of life a little more comfortable.

previously they are suffering from various diseases such as arthritis, rheumatism, abdominal disorder, respiratory complaint but now they are free from their complaint for active participation in our physiotherapy and yogotherapy camp. So we are very much interested in running a healthcare system method in our locality. ❖ **COTTAGE HOME (DESTITUTE HOME):** The best investment of any country is the investment in health and education of children so that we may create a breed of future citizens who will be physically fit and mentally alert. This highly commercialized world today is not only unfair to the fair of sex but also tries to squeeze out unfair advantages from the underclass. One cannot be a silent spectator without protest against such unfair atrocities upon them by the gown-up people. However, this generally happens more in the case of destitute boys who have no kith and kin to support them financially.

With assistance from the Directorate of Social Welfare, Government of West Bengal, Seulpur Udayan club had established a destitute home since 1994-95 with

capacity of 125 boys at present capacity of the Home 125 boys, he homes provides these boys with free boarding, lodging and garments and also impart general education and vocational training to these boys so that they can become proud citizens of India in course of time and can prove themselves as assets to the society and not liabilities.
